FIRST CIRCULAR

for the XII IBG Workshop in 2016

I would like to announce our plans to hold the XII IBG Workshop. This workshop encompasses all aspects of "indundative" biological weed control using plant pathogens, with emphasis on the development, commercialization, and use of bioherbicides. All interested parties are welcome to attend. I look forward to seeing you there!

Karen Bailey, IBG Chairperson

WHEN: During the 7th International Weed Science Congress - 19-25 June, 2016

WHERE: Clarion Congress Hotel, Prague, Czech Republic

THEME: *"Bioherbicides: Realizing their potential"*

TENTATIVE PROGRAMME: Two sessions: the first one with invited speakers (to be announced); the second session with volunteer contributions. Posters will be welcome. The Workshop will be a joint IBG-IWSS Workshop and managed as one of the parallel sessions of the Congress.

ABSTRACT DEADLINE: October 15, 2015. Follow the submission instructions at www.iwsc2016.org by selecting the "Joint IWSS/IBG Session" when choosing the Preferred Topic.

Registration and Hotel Booking starts December 2015. Workshop details and links for registration, hotel bookings and abstract submission may be found at either the Congress or IBG websites.
